About us

Tec Container presents Lashing Cages

OWN DESIGN AND PRODUCTION

MORE THAN 30 YEARS OF EXPERIENCE

The Tec Container group boasts of a technical design department and production team with more than 30 years of experience.

TEC CONTAINER SA has become a reference for Shipowners, Shipyards, Ports and Terminals. Our optimal combination of leading design, quality and experience has awarded us with the recognition of our clients in more than 80 countries and within a great variety of industrial sectors.

Since 2000 Lashing Cages has developed an innovative product, leader in port security, which has been adopted by many terminals all over the world. You can find our lashing cages in many of the main world ports.

The introduction of the Safety Cages in the terminals operative has improved the stevedores labour security, following the directions given by International Labour Organisation as well as the laws and regulations of each country. Additionally, the introduction of the safety cages in the labour security instructions in ports leads to cost reduction thanks to the decrease of time used for the stevedoring activities.

Safety Cages

Fixed Cages: 20ft or 40ft

Lashing Cage BA-185L

Includes doors for stevedores.

Includes sliding doors with an easy access for a forklift to the twistlock bins. The containers are fixed to the floor of the cage.

Rescue Cage BA-185

Includes doors on the short sides to facilitate access of stretchers or medical equipment. Includes wide doors in the long sides of the cage. The inside of the basket is empty to maximize the available space.

Transport Cage BA-185B

Includes doors for stevedores. The inside of the basket is empty to maximize the available space.

Modular: 20ft or 40 ft

Complete Lashing Cage BA-185L

Includes doors for stevedores.

Includes sliding doors with an easy access for a forklift to the twistlock bins.

The containers are fixed to the floor of the cage.

OPTIONAL EQUIPMENT

- Optional size 40'
- Electric pack with red/green light indicators for the doors situation (OPEN/CLOSE)
- Rescue pack including an electric outlet (24v), first-aid box and high-visibility torches.
- 2 certified life lines along the cage.
- Rubber bumper along the whole external perimeter of the cage.
- Safety net to prevent from falling objects inside the cage.
- Documentation and signs / plates in any language upon customer's request.

Fixed & Telescopic Gondola Cage

- No need for internal or external energy supply.
- No need for extensions or modifications on the spreader.
- Significantly increased occupational safety: the lashers work in an area which is protected all around, also against falling objects.
- The Cage is also an ideal implement for all kinds of problems on container stacks. Maintenance personnel can take tools, welding torches, etc. with them in the gondola.
- Robust and solid construction, designed for the rough operating conditions.

CERTIFICATIONS

Lloyd's Register Certificate

The Design of the Cage Under Spreader BA-185 is examined and approved by the Lloyd's Register and it is in compliance with the LR's Code for Lifting Appliances in a Marine Environment, August 2009, Chapter 3, Section 2.

Documentation

Our cages are delivered with:

- Test Load Certificate.
- Use / Maintenance Guide.
- Recommended periodical check-up list.
- CE plate with a unique serial number of construction and traceability of materials.
- Quality certificate of the safety slings and hooks included in the LASHING CAGES under spreader.

Design

Our LASHING CAGES are designed according to the regulations: UNE EN 13155 (cranes, safety, mobile equipment for cargo lifting). The wires comply with the norm UNE EN-13414-1 : 2004.

Recommendations for use

Our cages are designed according:

- O.I.T. Recommendations for "Cargo Handling Equipment".
- O.I.T. Recommendations for "Prevention of Occupational Hazards".
- O.I.T. Recommendations for "Health and safety in port labour" 1979.
- O.I.T. Recommendations for "Health and safety in ports" 2005.
- ICHCA Research Paper 4 - 1999.
- ICHCA Research Paper 11 - 2011.

The whole production process of the LASHING CAGES is supported by the ISO 9001 Certificate, which has been issued and is annually audited by Bureau Veritas.
